

FOR COLD AND GRIPPE DOCTORS FIND REMEDY

Physicians and druggists are elated over the fact that they have at last found a genuine and dependable remedy for colds, sore throat and influenza. For years they have depended chiefly upon the old style calomel, which is certainly fine, but unfortunately many people would not take it because of its nauseating and dangerous qualities.

Now that the pharmaceutical chemists have perfected a nauseous calomel, called "Calotabs" whose medicinal virtues are vastly improved, the doctors and druggists are claiming that Calotabs are the ideal remedy to abort a cold over night and cut short an attack of sore throat or a gripe. They are also finding it most effective as the first step in the treatment of pneumonia.

One Calotab on the tongue at bed time with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your eating or your work and pleasure. The next morning your cold has vanished and your whole system is purified and refreshed. Calotabs are sold only in original sealed packages, price thirty-five cents. Your druggist recommends and guarantees them by refunding the price if you are not delighted.—(Adv.)

SENATOR WEEKS RAPS ON WAR DEPARTMENT

FOR DELAYS AND ERRORS IN CASUALTY LIST.

Republican Solon Charges Failure to Co-Operate With Red Cross.

Washington, Jan. 2.—The war department was sharply criticized in the senate yesterday by Senator Weeks, of Massachusetts, republican, for delays and errors in compiling casualties among the expeditionary forces and for failure to co-operate with the Red Cross in the matter of forwarding lists from wounded soldiers to relatives in this country. Criticism was directed especially at the office of the adjutant-general of the army. Senator Weeks saying that Major-General McCain, the adjutant general who retired last summer to command a division, and who was succeeded by Maj.-Gen. Harris, should have been retained. He could not believe, he said, that a change in the office during the war was business-like or desirable.

"During the week ended December 14," he stated, "the Red Cross received an average of twenty letters a day from parents who had been advised by the war department that their sons had been killed on a specific date. In every one of these the parents wrote they had received communications from their sons subsequent to the date given by the war department. It seems almost ridiculous that so many errors could have occurred in cases of this kind."

It is also worth noting, the Massachusetts senator continued, that in sending reports of casualties to families the department simply stated the individual had been killed or wounded without further explanation and that so far as he knew the department had no other information on the subject.

"That work," he added, "has very

ANXIOUS OVER RUSSIA.

Britain Deems Early Allied Policy Extremely Urgent.

London, Jan. 2.—Russian affairs are causing the British foreign office considerable anxiety, says the Mail. The necessity of formulating a definite allied policy as to Russia is extremely urgent, and it has been decided that the Russian question will be the first to be discussed at the peace conference, it is said.

"It is presumed all allied nations are overwhelmingly against armed intervention by an expeditionary force," says the newspaper.

"The British government has also decided an expedition is impossible, preferring to encourage the creation of a stable government in Russia, although the origin of such a government is at present quite obscure. In the meantime munitions and instructions are being sent to the true Russians in the south, in Siberia and the forces on the borders of Poland and Finland. Large cargoes of food were recently sent to northern Russia for the people living in districts under allied control. There is no likelihood of the allied forces on the Russian coast being withdrawn."

GERMANY HAS NOT GIVEN LIST OF PEACE ENVOYS

EFFECTS BOLSHIEVISM ON CENTRAL POWERS

Closely Studied by American Delegates—Policy Toward Russia Not Formed.

Paris, Jan. 2.—Germany has not yet submitted a list of her probable peace delegates, or at least no such list has been brought to the attention of the American delegation to the peace conference, which is much concerned and is giving great consideration to the influence of the bolshieviki upon the central powers. Although the American representatives have received many reports of conditions in the Baltic states and in the Ukraine, these reports are very conflicting, and the delegates are not at all satisfied with the information at hand.

Balfour Now in France.

It is expected here the conference will begin January 18. A majority of the British delegates will leave London January 4, but the premier and Chancellor Bonar Law will not go until about the middle of next week. Secretary Balfour already is in France.

With the foreign office officials, who will accompany the premier and the other cabinet members, will go representatives of the war office, the admiralty, the air board and other departments.

A London dispatch Wednesday quoted the Evening News as giving the names of the British delegates to the conference. The newspaper list was the same as that given in the official announcement.

CAN BUY NITRATE

Washington, Jan. 2.—The secretary of agriculture has announced that, under the authority of the food control act and subsequent legislation, the department will offer nitrate of soda for sale to farmers for fertilizer use.

The nitrate will be sold for cash at cost. The price to the farmers will be \$11 a short ton, free on board cars at the loading point or port. In addition, the farmer will have to pay the freight charges to unloading point and any incidental expenses that he may himself incur in connection with the delivery of the nitrate.

The plan used in the sale and distribution of the nitrate will follow in a general way last year's plan. State directors of extension, county agricultural agents, and nitrate committees, composed of local business men, will direct farmers in filing their applications. Application blanks to be used by farmers will be sent to county agents and the members of local committees at an early date.

SHOULD MAKE A MILLION FOR HIM

Cincinnati man discovers drug that loosens corns as they lift out.

Local druggists are having a tremendous call for freezone, the drug which is said to shrivel a corn, root and all, without any pain.

A few drops of freezone applied directly upon a tender, aching corn relieves the soreness at once, and shortly the entire corn, root and all, lifts right out with the fingers.

This new drug is being dispensed at small cost in quarter ounce bottles, which is sufficient to take off every hard or soft corn from one's feet. It is a sticky substance which dries at once, and does not inflame or even irritate the surrounding tissue or skin.
